

RANGE OF APPLICATION

Trade fairs / walkways / marketplaces / Christmas markets / workshops / warehouses / shopping centres / department stores / construction sites, streets, etc.

DEFENDER® MIDI

5 MEDIUM CHANNELS – THE SOLUTION FOR NEARLY ANYTHING

The Defender® MIDI cable protection system has been designed for maximum routing versatility and secure crossing. Featuring a low profile, 5.1 per 20 x 20 cm load capacity, integrated connectors and handles the straight ramp, 45° curve and end ramps are easily linked to form a continuous cable guard while five 34 x 36 mm channels allow for individual sound, lighting and power line arrangement. Defender® MIDI cable protectors are ideal for a multitude of usages such as heavy wheeled traffic, construction sites, warehouses, carnivals, fairs, trade shows, exhibitions, shopping malls, broadcasting and music events. Available system option: wheelchair ramp (see page 29).
